PETCHI P

Power Platform Developer

+91 9360426487 preamk007@gmail.com linkedin.com/in/petchipandian07 Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Power Platform Developer with 3+ years of experience building business applications using Power Apps, Power Automate and SharePoint Online. Strong in Canvas Apps, workflow automation, SPFx (React / TypeScript) and UAT-to-production deployment, with working knowledge of Dataverse, Power BI and Copilot Studio.

TECHNICAL SKILLS

Power Platform:	Power Apps (Canvas & Model-driven), Power Automate Cloud Flows, Dataverse, Power BI
SharePoint:	SharePoint Online, Lists & Libraries, SPFx, REST API, Microsoft Graph
Web / Front-end:	React, TypeScript, JavaScript, Reusable SPFx components, HTML5, CSS3
Automation:	Approval workflows, notifications, data validation, HTTP/API integration
ALM & Deployment:	Managed & Unmanaged Solutions, Environment Variables, Connection References, UAT & Production release
Other:	SQL, PowerShell, Copilot Studio, Azure Functions (basic)

PROFESSIONAL EXPERIENCE

Power Platform Developer — Veelead Solution 3+ Years

- Build and enhance Power Apps Canvas applications — forms, validations, galleries, navigation and reusable components.
- Design Power Automate cloud flows for approvals, notifications, data sync and business process automation.
- Integrate applications with SharePoint Online, Dataverse and external APIs for end-to-end processes.
- Develop SPFx solutions using React and TypeScript for internal and client SharePoint requirements.
- Handle UAT and production deployments using Solutions, Environment Variables and Connection References.
- Provide production support — defect analysis, troubleshooting, enhancements and technical documentation.

KEY PROJECTS (CLIENT NAMES OMITTED FOR CONFIDENTIALITY)

Performance Management System Power Apps • Power Automate • SharePoint

- Built a multi-screen application covering objectives, competencies, year-end evaluation and employee master data.
- Implemented business rules, role-based access, calculations and approval automation; supported UAT and production release.

Purchase Order / Approval Management Power Apps • Power Automate • SharePoint

- Developed request submission, multi-level approval routing, notifications and status management with conditional rules based on request type and approval limits.

Vendor & HR Management Applications Power Apps • Power Automate • SharePoint

- Delivered vendor onboarding and HR process apps covering data capture, validation, notifications and approval workflows.

Help Desk & Issue Tracking Power Apps • Power Automate • SharePoint

- Automated ticket logging, master-data validation, status updates and email notifications for internal support teams.

SPFx Applications — Leave, Lunch & HR Portals SPFx • React • TypeScript

- Developed client-side SharePoint solutions with reusable React components for employee-facing business processes.

Student Enrollment Dashboard Power BI

- Created an interactive dashboard for enrollment reporting and trend visualization.
